13. Notices of Motion:

None.

14. Motions:

14.1 City of Burlington resolution calling for gas-fired electricity generation phase-out (ADM-10-20)

Moved by: Councillor Nisan

Seconded by: Councillor Sharman

Whereas the Government of Ontario is planning to increase electricity generation and greenhouse gas pollution from Ontario's gas-fired power plants by more than 300% by 2025 and by more than 400% by 2040, reversing more than a third of the greenhouse gas pollution reductions achieved by phasing out our coal-fired power plants; and

Whereas greenhouse gas pollution is causing temperatures in Canada to rise at more than double the rate of the rest of the world, causing impacts to municipal operations and affecting residents of the City of Burlington; and

Whereas the City of Burlington has declared a climate emergency and is taking measures to mitigate and adapt to the climate impacts caused by increasing greenhouse gas pollution; and

Whereas there are feasible, cost-effective alternatives to increasing gas-fired electricity generation without increasing greenhouse gas pollution at costs well below the current price for Ontario's nuclear energy (9.5 cents/kWh), including:

- energy efficiency investments;
- low-cost, distributed, renewable energy, providing employment in Ontario communities and restoring our leadership in this industry;
- the purchase of low-cost power offered by the Province of Quebec from its existing hydroelectric generating stations; and
- using Quebec's system of reservoirs like a giant battery to back-up made-in-Ontario renewable power, eliminating the need to use gas-fired

power plants for this purpose;

Therefore be it resolved that the City of Burlington requests the Government of Ontario to place an interim cap of 2.5 megatonnes per year on greenhouse gas pollution from Ontario's gas-fired power plants and develop and implement a plan to address future energy needs through investing in renewable energy and purchasing low-cost hydro-electric power from the Province of Quebec, making gas-fired electricity generation no longer necessary and supporting its phase-out by 2030 to help Ontario and the City of Burlington meet their climate targets; and

That this resolution be sent to the Premier of Ontario, the Minister of Energy, Northern Development and Mines, the Minister of the Environment, Conservation and Parks, all local MPPs, the Association of Municipalities of Ontario and copied to the Region of Halton and local municipalities of Oakville, Milton and Halton Hills.

IN FAVOUR: (7): Mayor Meed Ward, Councillor Galbraith, Councillor Kearns, Councillor Nisan, Councillor Stolte, Councillor Sharman, and Councillor Bentivegna

CARRIED (7 to 0)

14.2 Protecting Conservation Authorities resolution (ADM-11-20)

Moved by: Councillor Nisan

Seconded by: Councillor Galbraith

Whereas the City of Burlington has been well served by both Conservation Halton and Credit Valley Conservation; and

Whereas we rely on the watershed expertise provided by local conservation authorities to protect residents, property, and local natural resources on a watershed basis by regulating development under the Conservation Authorities Act, ensuring compliance with the Regulations and engaging in reviews of applications submitted under the Planning Act; and

Whereas new legislation introduces changes and new sections that could remove and/or significantly hinder conservation authorities' participation in and support of local planning appeal processes and their ability to protect development from natural hazards; and

Whereas the changes allow the Minister to make decisions without consideration of local conditions, the Conservation Authority Board approved policies, watershed data and technical expertise; and

Whereas the Legislation suggests that the Minister will have the ability to establish standards and requirements for non-mandatory programs which are negotiated between the conservation authorities and municipalities to meet local watershed needs; and

Whereas municipalities require a longer transition time to put in place agreements with conservation authorities for non-mandatory programs; and

Whereas municipalities believe that the appointment of municipal representatives on conservation authority boards should be a municipal decision; and the Chair and Vice Chair of the conservation authority boards should be duly elected; and

Whereas the changes to the 'Duty of Members' contradicts the fiduciary duty of a conservation authority board member to represent the best interests of the conservation authority and its responsibility to the watershed; and

Whereas conservation authorities have already aligned approaches through Memorandums of Understanding with local watershed municipalities to reduce delays, avoid duplication and improve service delivery for all clients; and

Whereas changes to the legislation will create more red tape and costs for the conservation authorities, their municipal partners, and cause delays in the development approval process; and

Whereas municipalities value and rely on the natural habitats and water resources within conservation authority jurisdictions for the health and well-being of residents; municipalities value conservation authorities' work to prevent and manage the impacts of flooding and other natural hazards; and municipalities value conservation authorities' work to ensure safe drinking water;

Therefore be it resolved;

That the Province of Ontario work with conservation authorities to address their concerns by repealing and/or amending changes to the Conservation Authorities Act and the Planning Act set out in Bill 229; and

That the Province of Ontario delay enactment of clauses affecting

municipal concerns; and

That the Province of Ontario provide a longer transition period up to December 2022 for non-mandatory programs to enable coordination of conservation authority municipal budget processes; and

That the Province respect the current conservation authority/municipal relationships; and

That the Province embrace their long-standing partnership with the conservation authorities and provide them with the tools and financial resources they need to effectively implement their watershed management role; and

That a copy of this resolution be forwarded to Premier Ford, Minister of the Environment, Conservation and Parks, our local MPPs, our local MPs, Prime Minister Justin Trudeau, Minister of Environment and Climate Change, the Leaders of all opposition parties, Halton Region, the City of Burlington, the Town of Milton, the Town of Halton Hills, the town of Oakville, Conservation Halton, Credit Valley Conservation, the Association of Municipalities of Ontario, and be made publicly available.
